Sizing:

Proteak's countertops, islands and backsplashes are available in both standard sized blanks and custom dimensions.

Available in end grain or face grain construction styles (finished or unfinished).

Our standard countertop features a face grain with square edges with a 1.5" thickness.

Countertop Sizes:

	48"	72"	96"	120"
25" Deep	✓	✓	✓	✓

Backsplash Sizes:

	48"	72"	96"	120"
4" Height, 3/4" Thick	✓	✓	✓	✓

Custom sizing and grains are available. A typical lead time on custom orders is 5 to 6 weeks.

Nothing adds warmth and sophistication to a kitchen like beautiful teak countertops.

Let's face it, countertops are the foundation of your kitchen. Teak is an ideal material for kitchen applications, not only because of its exquisite wood grain, but because its natural properties help it stand up to the rigors of everyday kitchen life. Teak countertops resist moisture and warping, keeping your counter tops looking beautiful year after year.
